

AT A GLANCE

CENTER FOR VENTURE CAPITAL, PRIVATE EQUITY AND ENTREPRENEURIAL FINANCE

WHO WE ARE

The **CENTER FOR VENTURE CAPITAL, PRIVATE EQUITY AND ENTREPRENEURIAL FINANCE (CVCPEEF)** integrates financial thinking and strategic decision making with innovation and entrepreneurship via research and education across the university and in the venture capital (VC) and private equity (PE) community around the world.

Our mission:

- Advancing and promoting academic and applied research on VC/PE, innovation/entrepreneurship
- Disseminating core knowledge and best practices on entrepreneurship, VC, and PE
- Maintaining strong ties with VC and PE investors
- Providing transformative leadership opportunities
- Engaging students with the MSU Student Venture Capital Fund and in hands-on projects with firms
- Collaborating with similar VC and PE centers at peer institutions

OUR GOAL

Growth, innovation, and entrepreneurship can't thrive without venture capital and private equity: the No. 1 reason why innovators and entrepreneurs fail is that they are not able to integrate financial decision making with strategic business development and growth. The CVCPEEF positions Broad and its students as transformational leaders with cutting-edge knowledge and skills to adapt to the ever-changing global business environment.

We foster mutually beneficial relationships with alumni VC-backed entrepreneurs and corporate intrapreneurs, VC/PE investors, corporate venture capitalists, and M&A specialists around the world.

OUR FOCUS

We take a broad perspective of the workings of venture capital and private equity in relation to company development and growth — from the start-up to the exit stages. We concentrate on:

- fundraising and fund structure
- investment selection and financial contracting
- entrepreneurship and innovation
- deal valuation and deal structure
- term sheets and partnership agreements
- staging and syndicating investments
- business development and growth
- VC/PE exit via strategic sale or IPO
- angel, corporate, and LP investments
- mergers and acquisitions
- buyouts and restructuring
- public equity markets

CENTER FOR VENTURE CAPITAL, PRIVATE EQUITY AND ENTREPRENEURIAL FINANCE

WHAT MAKES US DIFFERENT

1

We are MSU's **only center focused** on venture capital and private equity.

2

CVCPEEF **focuses on the interactions** between entrepreneurs, venture capitalists, and private equity investors — and the interactions among venture capitalists, private equity funds, and their investors.

3

We are uniquely **positioned with experts in both finance and entrepreneurship** to advance the center's mission and to provide transformational leadership opportunities.
